Accident Insurance

The hard truth about accidents? Injuries affect your health. Medical bills affect your wallet.

We can't always predict what amount will be covered by medical insurance and what expenses will be up to us. As inflation and rising deductibles stretch budgets thin, you can help protect yourself from extra debt, keep your savings intact, and stay on track with the purchases you really want to make.

Take care of your family and financial wellbeing with Assurity Accident Insurance, which pays cash benefits for expenses that may not be fully covered by major medical insurance.

You'll have the comfort of knowing there's extra protection in place – paying above and beyond your primary health insurance.

It's easy to think accidents won't happen to you. But the numbers say otherwise.

Every year,

1 in 5

Americans seek medical treatment for injuries. Here's where they occur the most:*

If you, your child or a family member are hurt in a covered accident, we pay cash benefits (based on your plan) for related care and recovery, including:

- The Initial Care you turn to following an accident, whether that's a family physician, Urgent Care facility, an ambulance and an Emergency Department, or a Telehealth call.
- It can also include things like X-rays and other diagnostic tests, or tools for managing pain and mobility
- The Continued Care to help you heal, from follow-up visits to rehabilitative therapy, home health care and lodging costs.
- Critical Care for severe injuries, requiring time in an Intensive Care Unit, a hospital stay, or a prosthetic device, for example.
- Thoughtful care so you have one less thing to worry about: like paying for childcare and pet care following an accident or transportation to medical facilities.
- Built-in Accidental Death Rider pays additional benefits if your death is the result of an accident.

Accident Insurance Benefits

Plans offered – Base, Advantage, and Complete – automatically include the policy benefits and Accidental Death Rider at the listed benefit amounts. Each benefit is subject to specific conditions for payment as detailed in the policy. All treatment must be provided or prescribed by a physician unless otherwise noted. Maximum benefits per insured person are one per accident unless otherwise noted. Benefits are paid when an insured person receives treatment or services described below for an injury sustained in a covered accident.
