Century+ Individual Disability Income Insurance

Mortgage Protection

Peace of mind for homeowners

A home is one of the biggest purchases you'll make in life. So it may surprise you to learn it's not your biggest asset — you are. The income you earn will far outpace the value of your home. By protecting your income, you can help protect your family and afford to stay in your home, even if you couldn't work.

Protect your mortgage and your family with a disability income insurance policy. Receive money to cover a portion of your income if, in the future, you are totally disabled and can't work due to an illness or injury.

How it Works

1

Suffer an illness or injury

You aren't able to work for an extended period because you are totally disabled due to an illness or injury.

2

Submit a claim

Submit your claim to Assurity.

3

Get paid

Receive monthly benefits while disabled, after your policy's elimination period, based on the benefit period you elect.

While you're recovering, you can use the money to help cover your mortgage so you and your family can stay in your home. If you do return to work, but can't do the same job because of your disability, you may still receive monthly benefits.

Need-to-know policy terms

Elimination Periods

How long you have to wait before your benefits start paying. You select this time frame when you sign up. Elimination periods can be as short as 30 days or up to 365 days after a disability begins.

Benefit Periods

The length of time your policy will pay you a monthly benefit while you're disabled. When you choose a benefit term, you're choosing how long benefits are payable to you while you're disabled—from 5 years up to retirement.

Own-Occupation Definition of Disability

Assurity defines a disability as the inability to work at your regular occupation during the first two years, even if you still might be able to work at another occupation.

Total Disability

A sickness or injury is considered a total disability if it keeps you from doing all the substantial and material duties of your regular job and requires a physician's care during the first two years of the benefit period. After the first two years, a sickness or injury is considered a total disability if it keeps you from doing any occupation and requires a physician's care.

How much coverage do I need?

Keep enough money flowing into your household to cover your mortgage, if you're disabled and unable to work.

Here are a few things to keep in mind to help you determine how much you'll need:

Mortgage payment

Property taxes

Association fees

Homeowners insurance

Other

For example, to protect a \$1,600 mortgage payment could cost as low as \$31.56 a month¹.

It's important to plan ahead.
